Nelson Novaes Neto

Partner at C6 Bank and Research Affiliate at MIT
São Paulo, São Paulo, Brazil

Resumo

Passionate about tackling complex problems, constantly learning, and giving back to the community, I unite my dual background in engineering and psychology to create people-centric technology that makes millions of lives easier.

After re-engineering the security and IT at Itaú-Unibanco—the largest bank in Latin America—and spending nearly 17 years leading technology and security for UOL & PagSeguro, Brazil's biggest portal and payments provider.

In 2018 I went on to build C6 Bank from scratch. I'm one of the bank's first nine partners and in just one year we rolled out a cloud-native stack for a complete digital bank, —now with 90 + digital services, 34 million+ customers and a 46 % strategic stake held by JPMorgan Chase—positioning C6 Bank as an innovate technology and benchmark for friction-free, AI-powered banking.

Across 25 + years I have designed and implemented IT, cloud, security, data, and payment platforms that process billions of transactions at high uptime, steered cross-border M&A tech integrations, and scaled high-velocity teams across Brazil and LATAM.

As a MIT research and guest lecturer at MIT Sloan, I publish peer-reviewed work/studies in ACM, the world's largest educational and scientific computing society, JISSEC and others and contribute thought leadership to World Economic Forum, Harvard Business Review, IEEE and others. I also keynote premier tech and cybersecurity forums around the world.

Off the laptop, competitive sport keeps me humble, pushes my limits, and fuels the energy I need to conquer any business and life challenge. I'm a global endurance cyclist—finisher of Cape Epic

(Africa) and Brasil Ride, two of the world's toughest MTB stage races—and a Jiu-Jitsu National Champion at the IBJJF Brazilian Championship, and climbed the biggest mountains in Europe, Africa, Brazil and the Alps.

Based in São Paulo with my wife and two daughters, I'm always pushing the next frontier of tech, talent, and transformation.

Do good without expecting anything in return—and ride or die!

Experiência

C6 Bank

Partner and CTO

janeiro de 2018 - Present (8 anos 8 meses)

São Paulo

Currently holding the position of Chief Technology Officer. I am one of the leading partners in the creation of C6 Bank, a rapidly expanding digital bank that values transparency to ensue transformative banking experience. With strong emphasis on complying with IT and security highest standards, C6 Bank is proud to work with a highly qualified team with robust expertise in technology. Because of the effectiveness and efficiency of its team, C6 Bank has pioneered in de-bureaucratizing the financial services and process of opening an account online by providing the customers with automated self-services.

Itaú Unibanco

Senior Manager (CISO)

janeiro de 2014 - fevereiro de 2018 (4 anos 2 meses)

UOL DIVEO

12 anos 3 meses

Head of Managed Security Services Unit

janeiro de 2011 - janeiro de 2014 (3 anos 1 mês)

Responsible for strategy and services creation, security solutions, including product mgt, P&L mgt, marketing, sales, IT development and operations.

Started this new BU and developed/released some products to the brazilian market in just 6 months (using the Lean Startup method):

- Vulnerability Scan (Web and Infrastructure - PCI/DSS, ISAE3402, ISO27000, SOX, HIPPA)
- Distributed Denial of Service (DDoS) Protection
- Web Application Firewall (as a service or not)
- Security Information and Event Management (SIEM)
- Brand Protection (we have the biggest base of phishing/spam/virus in LATAM)
- SOC - Security Operation Center (24x7x365)
- Digital Certificates (EV, OV DV SSL, Code Signing and others)
- Security Intelligence and Cybercrime
- Professional Security Services

General Manager - Information Security

novembro de 2001 - janeiro de 2014 (12 anos 3 meses)

Chief Security Officer (CSO) at UOL Group

Responsible for all cyber security strategy and operations, including product mgt, cloud security (security as a service), IT development and mission critical operations.

UOL Group is the internet leader and world's biggest Portuguese language portal, with more than 34.3 million unique visitors, and more than 4.9 billion

pageviews per month. Nelson was responsible for managing the security and protection of the first online debate between presidential candidates in Brazil, an event promoted by Folha/UOL and accompanied by 127 different countries.

Lead the team responsible for achievement of PCI-DSS, ISAE3402 (formerly SAS70) and ISO 27001 certifications.

The company is currently managing and protecting more than +12.000 servers, real-time monitoring of +2 billion security events and blocking of approximately 300 Million phishing / spam per day, and approximately +6.000 firewall / IPS devices with more than +150.000 administered rules.
